

**In the Claims**

Please cancel Claim 13 without prejudice or disclaimer of any of the subject matter contained herein.

Please amend the claims as follows:

14. (Amended) A pharmaceutical formulation comprising said pseudomycin prodrug or said pharmaceutically acceptable salt or solvate thereof of Claim 1 and a pharmaceutically acceptable carrier, buffer, diluent, or excipient.

15. (Amended) A medicament for treating a fungal infection in an animal wherein said medicament comprises said pseudomycin prodrug or said pharmaceutically acceptable salt or solvate thereof of Claim 1.

16. (Amended) A method for treating a fungal infection in an animal in need thereof, comprising administering to said animal said pseudomycin prodrug or said pharmaceutically acceptable salt or solvate thereof of Claim 7.

**REMARKS**

Claim 13 has been canceled. Claims 14-16 have been amended. Thus, claims 1-12 and 14-16 are presently in the application.

In regard to claim 14, this claim was amended to include a pharmaceutically acceptable salt or solvate thereof, a buffer, a diluent or a excipient in the formulation. Basis for the amendment can be found on page 25, lines 11-22. Additionally, claim 14 was amended to correct the antecedent basis ("a" replaced by "said") and remove the multiple dependency.

In regard to claim 15-16, this claim has been amended to correct an obvious typographical error ("an antifungal" infection replaced by "a fungal" infection). Likewise, the specification on page 7, line 11, was amended to correct the same error. Basis for these amendments can be found on page 26, lines 22-24 and page 27, lines 1-24. Additionally, claims 15-16 have been amended to correct the antecedent basis ("a" replaced by "said") and to make it clear that pharmaceutically acceptable salts and solvates are included in the claim. Furthermore, claims 15-16 have been amended to remove the multiple dependency.
